OBJECTIVE

With 1.8+ year of experience designing interfaces for healthcare and enterprise platforms, I aim to create meaningful and user-centered digital solutions. I focus on delivering intuitive and efficient user experiences through thoughtful design and continuous learning. My goal is to grow as a UI/UX designer while contributing effectively to impactful digital products.

EXPERIENCE

Achala IT Solutions Private Limited Feb 2025 – Present
UI/UX Designer

- Designed user-centric web and mobile interfaces aligned with business and user needs.
- Delivered end-to-end UI/UX solutions for **NephroPlus Guest App**, **Claim Assure**, **PEP Call Centre CRM**, **Claims Admin**, and **Radiologist Mobile App**.
- Collaborated with product managers, developers, and stakeholders to translate requirements into wireframes, mockups, and interactive prototypes.
- Contributed to healthcare platforms,and mobile applications, ensuring usability and design consistency.
- Utilized tools such as Figma, Photoshop, and Illustrator for design execution and developer handoff.
- Collaborated on requirement analysis, estimation, and iterative design enhancements.

SKILLS

Design: UX Strategy, User Flows, Wireframes, Prototypes, Mockups
Research: User Interviews, Usability Testing, Persona Hypothesis, Competitor Analysis
Tools: Figma, Adobe XD, Photoshop, Illustrator, After Effects

PROJECTS

NephroPlus Guest App
Designed a live patient healthcare app for nephrology and dialysis patients across India and the Philippines, covering appointment booking, health trends, CKD education, lifestyle guidance, rewards, and community features. Focused on creating calm, accessible experiences for long-term patient care and collaborated with developers to deliver production-ready designs.
Live Link

Blood Donation Mobile App (Life Line)
Designed a user-friendly mobile application that connects users with nearby blood donors in real time. The app addresses the critical shortage of blood by enabling timely access during emergencies, accidents, and medical conditions. Focused on clean UI, smooth navigation, and accessibility.
